

REACH DECLARATION

REACH is a European Union regulation that addresses the production and use of chemical substances as listed on their SVHC (Substances of Very High Concern) candidate list. The requirements for compliance include the registration of substances released into the EU environment and the disclosure of any SVHC contained within an article at a concentration at or greater than 0.1%.

Innovative Circuits, in our opinion, does not have an obligation of registration under REACH as our products (Printed Circuit Boards) are non-chemical articles which are not intended to release any substance under normal and reasonably foreseeable conditions of use. As articles however Innovative is required to disclose any substance of the SVHC candidate list that is contained within our products in a concentration at or greater than 0.1% by mass. We declare that our products built to RoHS compliance standards do not contain any substance of the SVHC candidate list in a concentration greater than 0.1% by mass.

Based on all available information known to Innovative Circuits up to this date, all duties under the European Union regulation no. 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) regarding the disclosure of Substances of Very High Concern (SVHC) according to Article 33 of the regulation have been fulfilled. This REACH Declaration of Conformity applies to all RoHS compliant products fabricated by Innovative Circuits.
