

## ROHS DECLARATION

RoHS (Restriction of Hazardous Substances) also known as Directive 2002/95/EC, restricts the use of specific hazardous materials found in electrical and electronic products. The substances banned under RoHS are:

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent Chromium (Cr)
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE)

Any trace impurities of these substances must be below the threshold limits as specified by the RoHS directive; specifically Cr+6, Hg, Pb, PBB, PBDE not to exceed 1000 ppm (0.1%) and Cd not to exceed 100 ppm (0.01%).

Innovative Circuits, based on all available information known to up to this date, certifies that all of its fabricated non HASL (Hot Air Solder Level) products are in compliance with, and conform to the European Union's Restriction of Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS) Directive 2002/95/EC and 2011/65/EU (RoHS2). This declaration is based on our analysis, vendor supplied analysis, material certifications, or laboratory tests of the component materials used in the manufacturing of our products.
